May 30, 2019

Dear Parents,

This morning, the school was evacuated at 9:00 a.m. due to a strange odour in a classroom. All procedures were followed and the evacuation took place without any incidents.

The Fire Department, Enbridge and DPCDSB Maintenance Services were called and they determined the source of the odour came from the gas meter outside, which was repaired immediately. Following air tests the school was deemed safe, and staff and student reentered at 9:30 a.m.

The students and staff should be commended for adhering to our safety measures and emergency evacuation procedures that are practiced throughout the year.

The safety and security of our students and staff is of paramount importance to us and we work hard to ensure that Bishop Francis Allen School is a safe, caring, healthy and inclusive place in which to learn and work.

If you have any questions regarding this incident, please contact myself at your earliest convenience.

Sincerely,

M. Noce
Principal
